

Pieter, 27 years old

REGION

Brussels - Leuven - Mechelen - On Remote

PROFILE

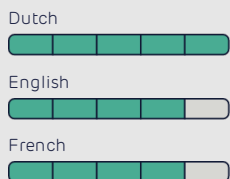

As a Master in Artificial Intelligence, Pieter distinguishes himself by the following qualities: a high creativity, very polyvalent, an analytical mindset and an extremely problem-solving thinking ability. A true all-round computer scientist who dares to set the bar high for himself.

Now that he has successfully completed his studies and has completed many of his own projects, Pieter is extremely enthusiastic to show his skills in a professional context.
